JOURNAL OF IMMUNOLOGICAL METHODS

Contents of volume 200 (1997)

Numbers 1–2 – 15 January 1997

Immunological standardization

Implications for the assay and biological activity of interleukin-8: results of a WHO international collaborative study
A.R. Mire-Sluis, R. Gaines Das, R. Thorpe and Participants of the Study (UK) 1

Research reports

A comparison between ELISPOT methods for the detection of cytokine producing cells: greater sensitivity and specificity using ELISA plates as compared to nitrocellulose membranes
J. Rönnelid and L. Klareskog (Sweden) 17

Interest of immunomodulation as a mean to improve the preparation of polyclonal and monoclonal antibody reagents
P. Bouige, S. Iscaki, A. Budkowska, A. Cosson and J. Pillot (France) 27

Determination of anti-HBsAg IgM monoclonal antibodies in cell culture media by perfusion immunoassay
J.M. Brackett, K.L. Cousineau, H. Wang, A.V. Annapragada, O.D. Cabal, G.S. Gall, B. Peterson and W.G. Robey (USA) 39

Inhibition of tumor growth by peptide specific cytotoxic T lymphocytes in a three-dimensional collagen matrix
W.-Z. Wei, B. Miller and R.M. Gutierrez (USA) 47

Functional assays for evaluation of serogroup B meningococcal structures as mediators of human opsonophagocytosis
A.K. Lehmann, A. Halstensen, J. Holst and C.-F. Bassøe (Norway) 55

High level production of soluble single chain antibodies in small-scale *Escherichia coli* cultures
S.M. Kipriyanov, G. Moldenhauer and M. Little (Germany) 69

Optimisation of a peptide-based indirect ELISA for the detection of antibody in the serum of HIV-1 seropositive patients
L. Brown, M. Westby, B.E. Souberbielle, P.W.S. Szawlowski, G. Kemp, P. Hay and A.G. Dalgleish (UK) 79

A sensitive fluorometric assay for quantitatively measuring specific peptide binding to HLA class I and class II molecules
T.H.M. Ottenhoff, A. Geluk, M. Toebes, W.E. Benckhuijsen, K.E. Van Meijgaarden and J.W. Drijfhout (Netherlands) 89

A non-denaturing enzyme linked immunosorbent assay with protein preadsorbed onto aluminum hydroxide
G. Houen and C. Koch (Denmark) 99

In vitro separation and expansion of CD4 lymphocytes from HIV-infected individuals without activation of HIV infection
S.D. Nielsen, J.O. Nielsen and J.-E.S. Hansen (Denmark) 107

vWf inhibitor detection by competitive ELISA
M.W. Stewart, W.S. Etches, A.R.E. Shaw and P.A. Gordon (Canada) 113

Experimental design for kinetic analysis of protein–protein interactions with surface plasmon resonance biosensors
R. Karlsson and A. Fält (Sweden) 121

Modulation of P-selectin expression on isolated human platelets by an NO donor assessed by a novel ELISA application
P.A. Whiss, R.G.G. Andersson and U. Srinivas (Sweden) 135

Competitive flow injection enzyme immunoassay for steroids using a post-column reaction technique
K. Kronkvist, U. Lövgren, J. Svenson, L.-E. Edholm and G. Johansson (Sweden) 145

Measurement of antibody/antigen association rate constants in solution by a method based on the enzyme-linked immunosorbent assay
F. Hardy, L. Djavadi-Ohaniance and M.E. Goldberg (France) 155

A novel method for the production of antibodies against ACTH: their characterization and use in epitope mapping
G. Kertesz, B. Bourcier, C. Barrande, C. Gregoire, H. Cailla and F. Jean (France) 161

The function of neutrophils isolated by a magnetic antibody cell separation technique is not altered in comparison to a density gradient centrifugation method
S. Zahler, C. Kowalski, A. Brosig, C. Kupatt, B.F. Becker and E. Gerlach (Germany) 173

Induction of antigen-specific isotype switching by in vitro immunization of human naive B lymphocytes
A. Zafiropoulos, E. Andersson, E. Krambovitis and C.A.K. Borrebaeck (Sweden, Greece) 181
Induction of antigen-presenting capacity in tumor cells upon infection with non-replicating recombinant vaccinia virus encoding murine MHC class II and costimulatory molecules
W.R. Marti, D. Oertli, J.B. Meko, J.A. Norton and K. Tsung (USA) 191

Short communication

Corrections to the original lactate dehydrogenase (LDH) release assay for the evaluation of NK cell cytotoxicity
G. Konjević, V. Jurišić and I. Spužić (Yugoslavia) 199

Contents of Volume 200 203
